

# A Mini-Beast Hunt

These cards have been created for you to freely use with your family, please honour our creative copywork and link back to us when sharing! Thanks. @jo\_mathinnature  
Nature Study Australia

## Instructions:

Print the cards. Laminate. Place a hole in the top left hand corner and insert a ring. Take the cards and an erasable marker with you outside. Hunt for mini-beasts. Look in leaf litter, under bark on trees, in the soil and on plants. Mark off the creatures as you find them. Older children may like to use tally marks on the back of the card to track how many of each they find. When you go inside create a graph of your search results.

Each cards has

- A photo of the mini-beast,
- It's name
- And a DO NOT touch sign, where needed.

**Bee**
