"God's miracles are to be found in nature itself, the wind and waves, the wood that becomes a tree - all of these are explained biologically, but behind them is the hand of God." ~ Ronald Reagan

"At six o'clock this morning the sky was pink from rim to rim with rosy clouds, that sent their glow on to the tips of the treetops and wakened all the birds of the neighbourhood into song." ~ A BUSH CALENDAR, Amy Mack

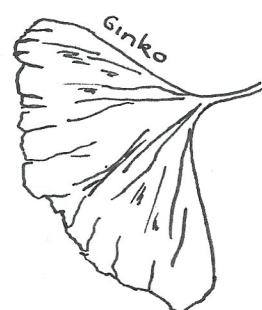

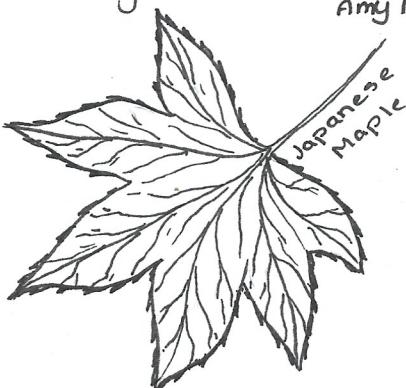

LOOK FOR, WRITE ABOUT...

- Pied Currawongs
- Emerald & Gum Moths
- Silver Xerica Butterflies
- Blue-bottle Wasps
- Harlequin Bugs
- Field mushrooms
- Hawk Moths
- Deciduous trees' leaves starting to change colour

WHAT KIND OF THINGS CAN I INCLUDE IN MY NATURE JOURNAL?

- Date, time, weather
- Location
- sketches
- Labels
- Information on sketches
- Latin names
- Timelines
- Diagrams
- Simple Surveys
- Graphs
- Measurements
- Photographs
- Maps
- Compass points, direction
- Pressed leaves/flowers
- Poems
- Quotes
- Scripture
- Hymns

"... be inquisitive.

LOOK around you, and ASK questions of nature. What bird is that? What's the name of that flower? How old is that tree?"
~MAKE A DATE WITH NATURE~ PAULA PEETERS
