

NSA 2022

AUGUST

Volume 3 - Winter / Spring

LET'S LEARN ABOUT

Orchids

the Moon

Molluscs

Mice

Powerful Owl

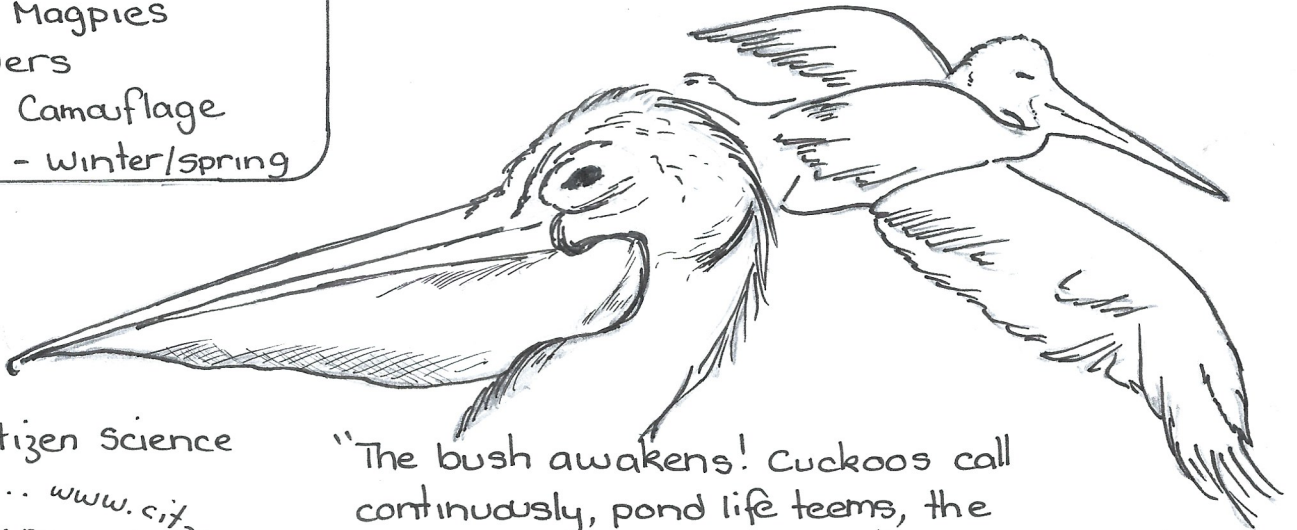

Magpies

Wildflowers

Camouflage

Volume 7 - Winter / Spring

"Doth not all nature around me praise God? If I were silent, I should be an exception to the universe. Doth not the thunder praise Him as it rolls like drums in the march of the God of armies? Do not the mountains praise Him when the woods upon their summits wave in adoration? Doth not the lightning write His name in letters of fire? Hath not the whole earth a voice? And shall I, can I silent be?" Charles Spurgeon

"The bush awakens! Cuckoos call continuously, pond life teems, the first butterflies appear. Small sea invertebrates begin breeding as the rock pools warm up. Humans prepare vegetable gardens for spring planting."

Gum Leaves and Geckoes

LOOK FOR WRITE ABOUT...

- Owls nesting
- Kapok bush in fruit
- turtles lay eggs
- pelicans in large flocks
- new growth on eucalypts
- spider hatchlings
- magpie larks building mud nests
- willie wagtails building nests below the magpie larks
- pandanus fruit fall
- citrus and stone fruit trees in flower

- greenhood orchids
- painted lady butterflies in the south
- manna gums and long-leaved box in flower
- sea slugs lay egg rings.

NATIONAL SCIENCE WEEK :- AUGUST 13-21

THEME:- Glass: MORE THAN MEETS THE EYE

www.scienceweek.net.au
